Aviation art of Piotr Górka

**Piotr Górka, *Aviation art of Piotr Górka*,
tłumaczenie Wojciech Matusiak,
Warszawa 2024, 172 s., ISBN
978-83-8229-696-9**

This album honors Polish pilots fighting in the West during World War II. The Polish version was published by IPN in 2020. Due to the huge interest shown in the West in the history of Polish pilots fighting in World War II, IPN's Publishing House prepared an English edition of the album. The album itself is the result of almost thirty years of Piotr Górka's artistic work. It contains pictures of his oil paintings depicting the history of the Polish Air Force in the West during World War II. Every painting is followed by a separate chapter describing the air fights depicted as well as the history of the artwork itself.
