International Conference “Second Circulation of Publications in the Polish People’s Republic (PRL) against the History of Samizdat in the Countries of the Soviet Bloc after 1956” – Warsaw, 31 May – 1 June 2012

POLISH VERSION

The Public Education Office of the Institute of National Remembrance organizes international conference entitled “Second Circulation of Publications in the Polish People’s Republic (PRL) against the History of Samizdat in the Countries of the Soviet Bloc after 1956”. The conference will be held on 31 May – 1 June, 2012 in Warsaw in the IPN’s Educational Center “Przystanek Historia” at 21/25 Marszałkowska Street.

The aim of the conference is to reflect on the history of independent publishing movement in Poland, in the 70s and 80s, as compared to other Soviet bloc countries. Participation of researchers from the Polish and foreign scientific centers, representing various disciplines, will allow to describe the role of books and magazines, which were

published in the second circulation, on the way to democratic change in 1989.

Second circulation publishing was one of the main forms of activity of the opposition in Poland in the 70s and 80s. Rarely, however, this phenomenon aroused wider interest of historians and other researchers. It is worth considering what role the illegally printed magazines and books played in the history of the democratic opposition and Solidarity Movement. One can also look from a broader perspective on the phenomenon of the second circulation publishing, examining them against the background of the history of samizdat in Central and Eastern Europe after 1956. The comparative perspective will allow to reflect on the similarities and differences in the functioning of the second circulation in each country. Particularly interesting are case studies, focusing on specific phenomena and mechanisms.

The conference will be held in Polish and English (with simultaneous translation). Admission free.
