“Battle of Warsaw” - a fast-paced wargame depicting the landmark events of August 1920 during the Polish-Bolshevik war.

“Battle of Warsaw” is a fast-paced wargame for two players, depicting the landmark events of August 1920 during the Polish-Bolshevik war. The Polish Army must face the Bolshevik armies attacking Warsaw. The Red Army player’s goal is to invade the capital. The Polish Army player’s goal is to block them and destroy the attacker’s armies. Will Polish soldiers succeed? Can they defend Warsaw? If they fail, Bolshevik armies will continue west over “the corpse of white Poland”, and communism will spread across Europe...

## Game components:

1. Game board with a hexagonal grid

2. 12 army unit tokens: x 6 pentagonal Red Army units x 6 round Polish Army units, including 1 “Obrońcy Warszawy” (Warsaw Defenders) unit.
3. 60 command cards: x 30 Red Army cards x 30 Polish Army cards
4. 24 wooden command markers
5. 6 two-sided attack markers
6. 1 wooden time marker

## Goals:

The Red player's goal is to invade Warsaw, which happens if any Red Army unit enters Warsaw (marked with a red border). The Polish player's goal is to smash the attacker's units, forcing the Red troops to retreat before being reinforced by the Southwestern Front. To achieve this, eliminate any 3 Red Army units, or disperse all Red Army units.
