## Stefan Wyszyński - Projection Mapping

The Institute of National Remembrance has prepared a new educational tool presenting the life and work of Stefan Wyszyński in a modern, multimedia format.

The educational materials have been prepared for the purposes of projection mapping which can be used for various presentation techniques to turn objects and buildings into a display surface within city space thus enabling them to be viewed by wide audiences.

The photos below portray the projection mapping presented on the walls of the seat of the Institute of National Remembrance in Warsaw, at 1 Janusza Kurtyki Street, which took place on 7 September 2021.

We encourage everyone who would like to organize a similar event in their town or city to contact the project coordinator, Artur Kolęda in order to receive a free source file.
